# ABOUT | US

It is very gratifying to profile Black Cobra Group before you. It is our way of acknowledging your creativity, taste, eye for quality and sustainability. Black Cobra Group is a distinguished pillar of the Indian building materials sector since 1995.

The Black Cobra and Alex Panels Group is a leading manufacturer of building materials in India manufacturing a diverse range of products such as Commercial Plywood (MR and BWP), Shuttering Plywood, Flush Doors, Laminates, PVC Boards and Doors, PVC 3D Wall Panel and Grills, PVC Laminates, WPC Door frames, Aluminium Composite Panels (ACP), etc. Our group has over 1 mn+ sq ft of manufacturing space spread across 6 manufacturing plants and has also etched its mark in the Education sector with a resplendent chain of institutions called Quantum University in Roorkee which is ranked among the top 60 B-schools in India by the Times Group.

Our group has a pan India network of more than 2000 dealers, 100 distributors and over 10 godowns for ensuring timely supply and service. Our clientele includes IOCL, ITC, Asian paints, Castrol, Blackberry, Samsung, Patanjali, J K Tyre, Reliance Industries, DMRC, NBCC, Airport Authority India, BMRCL, PWD, IGL, MGL, LIC, DTTDC, Indian Railways and many more.

# INSTALLATION INSTRUCTIONS AND CARE

## V-GROOVE Radius Cutter

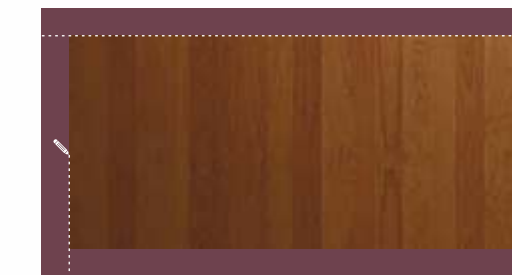

STEP - 1

Cut Your PVC Laminate Sheet According To The Size

STEP - 2

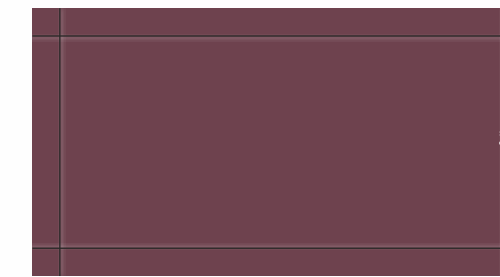

Check The Size By Placing The Plywood Of WPC Board On It.

STEP - 3

Make Mark for V-Groove Cutting

STEP - 4

Make Groove With V-groove Cutter That Are Easily Available In The Market. The V-groove Should Be At Least 2.5mm Wide And 0.5mm Deep.

STEP - 5

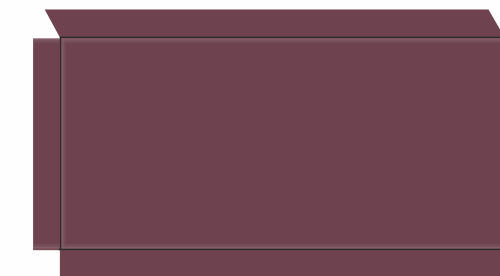

Now Cut The Corners With The Help Of A Pair Of Scissors.

Scan For Detailed 90 Degree Bending Video

STEP - 6

Carefully and Slowly Bend The Laminate At 90 Degrees With The V-Groove Mark

STEP - 7

Now Stick It On To The Surface Of The Panel With The Recommended Adhesives For That Panel Surface

STEP - 8

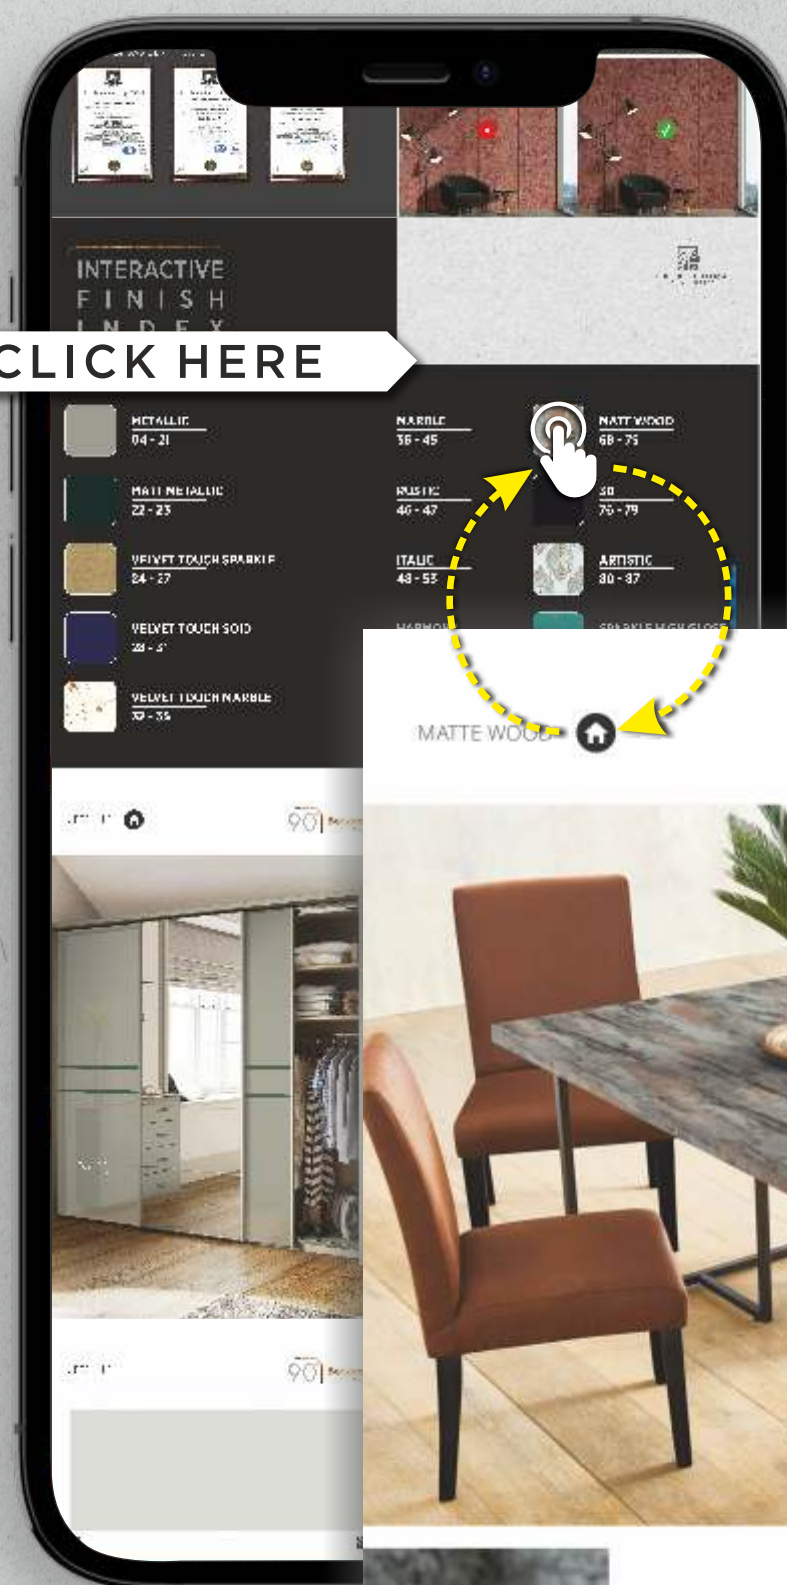

In Case Of White Lines On The Edges, Use Hot Gun To Fix It

PROTECT FROM DIRECT SUNLIGHT AND DO NOT STORE THE SHEETS IN SUNLIT AREA BEFORE INSTALLATION

**TECHNICAL STANDARDS**

**ABOUT LAMINATE & LINER**

- Laminate Thickness: 1.2 mm (± .10 mm) Available in 1mm to 3mm thickness on order.
- Liner Thickness: 0.8 mm (± .10 mm) Available in 0.8mm to 3mm thickness on order.
- Standard Sheet Size: 1220 mm X 2440 mm
- Sheet Options: Any length can be provided on order

**WHY BLACK COBRA?**

Here at BLACK COBRA, we are committed to designing innovative decorative finishes, whether Solid Gloss, Marble, 3D, Metallic, Gloss, Natural Wood and many more. Each laminate is designed in house to be the very best and to deliver impeccable performance throughout its use.

**CUSTOMIZED SIZES AND SHADES CAN BE DEVELOPED ON REQUEST!**

 Extra care is required during vertical pasting of laminate sheets as there is a possibility of formation of air bubbles due to lack of uniform pressure.

 Avoid direct sunlight, this may cause color fading.

 Cracking at corners may be caused by poor planning, improper packing, improper transportation conditioning. Avoid all these to prevent it from cracking.

 Do not use chemicals for cleaning.

**APPLICATION PROCEDURE**

**ADHESIVE:** Water and solvent based adhesives are normally used with plastic laminates. We do not suggest the use of heat activated adhesives. Recommended adhesive to be used while pasting laminate - Probond and Heat-X

**CUTTING AND INSTALLATION:** These PVC FLEXIBLE Sheets can be easily cut, routed and drilled, with most common wood working tools or equipments. All blades must be sharp to remove any burrs that may occur in cutting process, use a smooth file to feather all corner edges.

**LAMINATION:** A clean, dry surface is necessary for adhesive bonding, non porous surfaces as found on metal, plastic and any other material should be degreased, dried and roughened by sanding or chemical etching. Proper care must be taken prior to bonding. We DO NOT recommend any kind of coat on our product. Coating will spoil the originality and natural beauty of the laminate sheet.

**BENDING:** Use only V-Groove cutter to bend the sheets at 90°, or a Groove of 0.3 mm to 0.5 mm for bending the sheet up to 90°. For any further inquiry, contact us.

**MAINTENANCE:** Avoid any kind of chemical contact, keep away from sunlight, protect it from the sharp metal edges to avoid scratches. Remove protective film after installation.

**WARRANTY:** Colour shade may vary from one lot to another. Inspect it before cutting or pasting. Company's liability is limited to the cost of the product only.

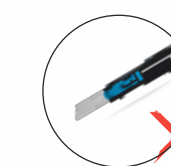

**TOOLS FOR LAMINATE**

**Diamond cutter for Sheet cutting**

**V- Groove Cutter for proper 90° Bending**

**Avoid other Cutting Blades**

**FEATURES**

90 DEGREE BENDABLE

NON TOXIC

100% WATER PROOF

RECYCLABLE

LEAD FREE

FIRE RETARDANT

100% TERMITE PROOF

100% BORER PROOF

ANTI MICROBIAL

COLOR CORE

MADE IN INDIA

15 YEAR WARRANTY

**CHOOSE FROM WIDE VARIETY OF OUR PRODUCT RANGE**

- Commercial Plywood
- Shuttering Ply
- Flush Doors
- Aluminium Composite Panels
- PVC Boards
- WPC Door
- WPC Door Frames
- 3D Wall Panels
- PVC Grills
- Laminates
